EXPERIENCE

FULL STACK DEVELOPER CYBORN 2018-2019

At Cyborn, I work on several tools written in C# and .NET Core to improve the workflow. The main website and some other small front-end projects I was involved in too.

INTERN CYBORN 2018

My internship at Cyborn consisted of testing communication tools like Slack, Trello, Shotgun, etc and their integration into a .NET-Framework.

NMCT HOWEST 2015-2018

Bachelor graduation New Media & Communication Technology at Howest. This study taught me a broad amount of topics: backend, frontend, and app development, networking, ...

STUDENT JOB KINEPOLIS 2014-2018

Worked as a student at Kinopolis for 4 years. Learned a wide variety of improvements such as working in a team, communication with clients, working efficiently, ...

INTERESTS

C#, .NET

I primarily code in C#, .NET Core is an awesome framework to work in. I do follow all the upcoming developments. (Blazor, .NET Core 3.0, Entity Framework, ...) C# is mostly mixed with SQL and Javascript for my projects.

FRONT-END

Dabbled with all main frameworks (Angular, React, Vue, Svelte). Knowledge of Sass, jQuery and other front-end related languages.

EVERYTHING ELSE...

I like to try things out. Flutter, Firebase, AWS, Azure, ...

SPORTS & MOVIES

In my private time, I have a strong passion for sports (mainly triathlon) and movies.
